Dear Jack,

I am happy to write this letter of recommendation regarding the excellent service that the ProHome team has provided to our condominium communities in Las Vegas.

As a result of our association with your company over the past five years, we are convinced that ProHome provides the most efficient and cost effective method for delivering first class state of the art warranty management services.

The time and overhead expense that ProHome saves our projects in addition to the legal risk management that your programs inherently provide has proved to be a tremendous asset to the communities that we have developed with ProHome on our team.

We also appreciate the positive feedback that we have received from our customers and subcontractors about the personal attention and professionalism that ProHome has provided on our behalf.

I thank you for the valuable contributions that ProHome has made to the success of our residential communities in Las Vegas and I look forward to many more successful ventures with ProHome at our side.

Sincerely,

David J. Moon
President
